

EXHIBITION MEET REPORT

BRAILES VILLAGE HALL 27TH AUGUST 2017

Not only are the entry numbers down again this year but we believe that the number of units at the meet are also down. This has been discussed with the Group and our Chairman called a meeting to try and inject new life into the Club to encourage more people to be more active members with the Group.

Although numbers were down a little we had a good selection of prints and images so we consider it to be a successful Exhibition.

It would be nice to see the numbers increase and more members entering prints and images. Some members have not entered this year due to various reasons and hopefully they will enter again next year along with newer members.

The judges Roger Parry and his wife Judith got through their judging very quickly and made very good comments when speaking about the prints and digital images.

Next year will be our 5th and final year of doing the Exhibition. We have more Grandchildren now and the work for the Exhibition is done July and August when we see more of them during school holidays. We would like somebody to shadow us next year so that we can hand over the job to them.

We have enjoyed running the Exhibition over the last few years but as family commitments are taking more time it is time to hand over to somebody else. There have been a few stressful moments but it's always worked out in the end.

We purchased a new calibration device (the X-Rite Display Pro) which was used for the first time at the Exhibition and it has given good results. This replaced the Colormunki which we were told wasn't repairable.

We think it is also time to replace the laptop as technology has now moved on and it is no longer suitable for judging competitions as it does not meet the required standards. This year we used our own laptop for judging.

Sue and Dave Tawn – Exhibition Secretaries.
