

Photocamper Editor Report to 2018 AGM

I took over the Photocamper from Eileen at last year's AGM because nobody had come forward to volunteer and I felt that Photocamper was such an important part of the Group that it should be continued. I have been lucky in finding a new printer who is based close to my home and that the Council have agreed to more pages being printed in colour. This has allowed me to include many more of your lovely photographs. I always welcome copies of your favourite photographs for inclusion. After a recent Council meeting it was agreed that the layout of information on Meets should be changed and I hope that you are finding this helpful. I am only planning on doing this job for an interim period so if you would be interested in having a go why not come and chat at one of the Meets. It can be a very rewarding job and is a good way to keep in touch with fellow members.
