National Council Advisory Officer report to 2020 AGM

My apologies to members that I have missed the September 2019 and January 2020 National Council meetings. It is important for the Group that we are represented at these meetings from both a downward communication and influence perspective. As a Section of less than 3000 members we do not benefit from a vote but the opportunity is there to voice/lobby the Photographic Group perspective and to receive timely information on relation to Club guidance, policy and prospective changes. It is a privilege to attend these meetings and remain up to date regarding latest policies and changes.
